

SOLIDWORKS COMPOSER MATRIX	SolidWorks Composer	Solidworks Composer Enterprise Sync	SolidWorks Composer Player (No Charge)
Import SOLIDWORKS, Creo (read only)	✓		
Update content with latest design changes (geometry, BOM tree, metadata)	✓		
Create step-by-step procedures showing incremental components	✓		
Capture exploded views with automated trail lines	✓		
Add annotations (auto balloons, BOM table, arrows, detail views, and more)	✓		
Change appearances (hide/show, transparency, colors)	✓		
Create manufacturing BOM independent of engineering BOM	✓		
Customize parts lists and properties for each view	✓		
Create key frame animation by drag drop views on timeline	✓		
Create interactive storyboards by adding links to relevant views	✓		
Animate appearances and custom properties	✓		
Interactive animation with markers	✓		
Filter timeline keys for finer control	✓		
Update animation with latest design changes	✓		
Static images (raster graphics and vector line art)	✓		
Dynamic AVI videos (multiple codecs supported)	✓		
Interactive 3D documents (as lightweight executable)	✓		
Protect intellectual property (secure 3D brush, rights manager)	✓		
Standardize styles for creating content (balloons, labels, annotations)	✓		
Standardize profiles for publishing content (raster, vector, video, views, BoM)	✓		
Standardize default document settings (import, output qualities, security rights)	✓		
Publish consistent quality with paper space (WYSIWYG—what you see is what you get)	✓		
Automate content creation by using custom API programs	✓		

Automate batch mode import of 3D files and publishing content		✓	
Automate document creation within existing workflow systems		✓	
Automate document translation by using custom XMI program		✓	
Rotate, zoom, animate, measure, view BOM, section (rights controlled by author)			✓
View step-by-step interactive instructions with no additional UI			✓
Create custom applications to distribute internally or over website			✓
